JAPS HAVE HAD BETTER OF WAR

Newspaper Reviews Frankly Admit Japanese Victory.

DONE WELL; NOT WELL ENOUGH

Situation Is Such that Russia Must No Longer Rely Upon International Diplomacy, but Take Steps for Own Protection.

St. Petersburg, Jan. 16.—New year reviews by the various newspapers admit frankly that the Japanese have had the better of the war so far, but the whole tone of the press is summed up in the following statement in the Russ:

"Though I have done well, but not well enough."

They have entrenched themselves in Korea as though they were at home and have captured Port Arthur, and made conquest of most of southern Manchuria, but are face to face with a Russian army of equal numbers, and they are checked. The new year will show the Russian flag raised again along the borders by warm weather. The Novoe Vremya alone comments on the Russian note to the powers regarding Chinese neutrality, and says the keenest diplomacy will have to be exercised in this matter. China cannot or will not preserve neutrality, and Russia has been confronted time and again, the articles says, by the way in which Wei Hai Wei and Che Foo have been used as Japanese bases. In conclusion, the novel Novoe Vremya says it is a situation wherein Russia must no longer rely upon international diplomacy, but must take steps for her own protection.

French Are Criticised.

Tokio, Jan. 14.—Noon.—The French are sharply criticised for permitting the ships of the second Pacific squadron of the Russian navy to make a prolonged stay at Madagasarc. The Asahi today says:

"It is not longer possible to overlook the French non-neutrality nor her disregard for the obligations of a neutral nation. Coaling the ships of the second Pacific squadron in French ports has culminated in allowing Rear Admiral Rojestvensky to remain for 12 days awaiting reinforcements and in the use of the Madagascar as a base of operations against the Japanese fleet, now reported in the Indian ocean.

"Such action is less than hostile, and if France is sincere in her promises of strict neutrality, the ships of the second Pacific squadron ought long ago to have been sent away or disarmed.

"Further temporizing for the purpose of rendering assistance to Russian vessels must be considered a serious breach of neutrality."

Japanese Route Russians.

Tokio, Jan. 14.—1:40 a. m.—Additional reports from the Japanese army headquarters state that the Russian cavalry which was defeated in the neighborhood of Yin Kow Wednesday and retreated in a disorderly condition to North Taknokan, south of New Chwang, leaving 62 killed and wounded behind. Many abandoned their arms and accoutrement in their flight. It is believed that the Russian casualties exceeded 200. The Japanese routed the Russians near New Chwang Friday.

Japan Thanks Germany.

Berlin, Jan. 16.—The Japanese government taking cognizance of an impression that Germany has not observed strict neutrality has sent a formal dispatch of thanks to the German government. It expresses the conviction that Germany has fulfilled her duty as a neutral government throughout the war, and especially during the recent events in the war zone.

Gen. Stoessels at Nagasaki.

Nagasaki, Jan. 16.—The Japanese transport Kamakaru from Port Dalny Jan. 11, with General Stoessels and others aboard, arrived here today. After a prolonged quarantine inspection Governor Arakawa with the chief officials of this port, proceeded on board the Kamakaru to the wharf where two steam launches were received by the guard of 50 police and several officers and gendarmes. The Russian general was attired in a gray military overcoat and wore his sword. He looked well and walked with a stately step. Preceded by a few police officers and followed by his retinue, General Stoessels slowly wended his way up the hill to a prettily situated bungalow on Inasa H ill, where he will be quartered. Half way there some dozens of Russian officers finding that their late chief was arriving, ranged up Inasa Hill, where he will be quar spectful silence. The party then entered the house. The closing act of the great drama caused a feeling of sadness which was not dispelled by the glorious weather, beautiful surroundings and kind reception accorded to the Russians by the Japanese.

SOUTH DISCRIMINATED AGAINST.

So Says Tillman In Regard to Securing Pensions.

Washington, Jan. 16.—At the [illegible] nition of Mr. Platt, of New Yo[illegible] senate took up consideration [illegible] the bill amending the law gover[illegible] the distribution of public docume[illegible] but on objection of Mr. Spooner, [illegible] said he desired to examine the m[illegible]ure, it was termorarily laid aside.

Mr. Spooner withdrew h[illegible] objection to the printing bill, and it [illegible] passed. It regulates the distributi[illegible] of private bills in congress.

In connection with the consideration of the bill granting a pension to the families of the members of the Indian police, who were killed in 1890, in the capture of Sitting Bull, Mr. Tillman made the claim that the Indian police are on the same footing as the Philippine constabulary.

He said that he had made an effort to get a pension for the family of a South Carolinian who was a member of the Philippine force, and who was killed while on duty there. He contended that there had been discrimination because his constituents were from the south. Mr. McCumber, in criticising the bill, said such was not the case.

"The senator sees it that way. He don't want to see it any other way," said Mr. Tillman. Mr. McCumber protested that he was willing to be guided by the facts, to which Mr. Tillman responded that he "disputed the senator's interpretation of the facts."

DESIRES TO END STRIKE.

To End or to Continue Textile Trouble In Hands of a Committee.

Boston, Jan. 16.—A conference was held today at the office of Governor Douglass at the state house between a committee of the cotton goods manufacturers of Fall River and representatives of the operatives, who have been on strike for nearly six months.

Th emeeting was held at the instance of Governor Douglas, who is desirous of bringing about a settlement of the trouble.

The Textile Unions of Fall River last night voted to give a committee from the unions full power to act in the matter of ending or continuing the strike and the manufacturers' association also delegated to a committee to act authoritativelyy for them in fixing the terms for a settlement.

These committees met in the governor's office today. The conference was private.

Boy Kills His Sister.

Mobile, Ala., Jan. 16.—Adeline Cumbre, aged 8, was killed yesterday near Barbero postoffice, Perry county, by her 12-year-old brother. The boy and two sisters were playing in a room with a shotgun, when the boy threatened to shoot the girls. One ran behind the door and the other jumped up on the bed. The boy, it is said, fired point blank at the latter, tearing away one side of the skull. He did not know the gun was loaded.

Unique Election Contest.

Avalon, Pa., Jan. 16.—This village has a unique election contest on. Mrs. Mary D. Lashley, wife of Joseph H. Lashley, one of the town's stanch business men, has declared herself for school director. Her husband is opposed to her going into politics, and today announced that he would take the stump against her and defeat her as badly as possible.

BRISTOW RESIGNS HIS JOB IN ANGER

Felt As Though He Had Been Snubbed By Wynne.

PRESIDENT GIVES HIM NEW JOB

Mr. Bristow Took Offense at the Recent Order of the Postmaster General in Regard to Postoffice Inspectors—Other Capital News.

Washington, Jan. 16.—Joseph L. Bristow fourth assistant postmaster general, has tendered to the president his resignation as an officer of the postal service, to take effect on the 20th instant.

By an executive order, issued late this afternoon, President Roosevelt designated Mr. Bristow as a special commissioner to make an investigation into the present trade conditions and freight rates between the Atlantic coasts and between the west coast of South America and Europe and to determine the best policy of managing the Panama railroad.

Mr. Bristow regarded the issuance of the order of transfer of the division as a reflection upon him. That the order as to the inspectors' division was not issued with the idea of humiliating Mr. Bristow is evidenced by the president's action today.

In the House.

When the house met today Mr. Gillette, of Massachusetts, called the resolution inquiry relative to the political activity on the part of the letter carriers raised by Mr. Hearst. He asked that the house agree to the resolution explaining that it called on the president and postmaster general for information. The resolution was agreed to.

On motion of Mr. Sulloway, the house took up the consideration of the private pension bills, that being the regular order, for the day. The first bill was to correct a military record.

Mr. Maddox (Ga.) instituted a close inquiry into the case, which Mr. Loudenschlager (N. J.) endeavored to answer.

In the Senate.

At the beginning of today's session Mr. DuBois introduced an amendment to the joint statehood bill prohibiting the practice or encouragement of polygamy in the proposed states of Oklahoma and Arizona.

The Philippine railroad bill was sent to conference with Messrs. Lodge, Hale and Culberson as conferees.

TO KEEP PLATT FROM SEAT.

Declared He Subverts Interest of the People.

New York, Jan. 16.—At the meeting of the Postal Progress League, in Cooper Union, Chairman Post, of Battle Creek, Mich., said he had prepared and will ask the United States supreme court for a restraining order to prevent Senator Thomas C. Platt from taking his seat.

He said he would take this action on the ground that Senator Platt subverts the interests of the people he has sworn to represent in the interest of a corporation he really represents. The matter relates to the parcels post.

Rough Riders Invite President.

Washington, Jan. 16.—Members of a delegation from the commercial bodies of Dallas, Tex., were introduced to the president today by Colonel W. G. Sterrett. They extended to the president a cordial invitation to visit Dallas, when he shall make his contemplated trip to San Antonio to attend the reunion of "Rough Riders." The president could give no definite response to the invitation, but promised to consider it.

Against Mileage and Passes.

Washington, Jan. 16.—Representative Sheppard, of Texas, introduced a bill yesterday prohibiting the payment of mileage to senators and members who ride on free passes. It requires written statements to be filed with the president of the senate and speaker of the house by senators and members to the effect that they have not used passes before they shall receive mileage.

Jewish Citizens of Chicago Take Steps to Aaid Countrymen.

Chicago, Jan. 16.—Jewish citizens of Chicago are taking steps to give aid to and find homes for the hundreds of Jews who have fled from Russia to escape service in the army of the czar, and are now flocking to Chicago in ever-increasing numbers.

In order to facilitate and systematize the work of succoring the refugees an organization known as the Jewish Agriculturists' Aid Society has been formed and Dr. A. R. Levy, pastor of the congregation, B'Nai Abraham is corresponding secretary and manager. The society has undertaken on a large scale the scheme of colonization of these refugees on the fertile lands of the middle western states.

Adolph Loeb is the president of the society. Out of its loan fund the society had advanced money to Jews willing to establish themselves as farmers. The amount rent has varied from $600 to $1,500. With this money the Jews purchase farms or rent is paid for them.

DISCOVERS CURE FOR CANCER.

Reward Promises To Be Given to Years of Search.

Buffalo, N. Y., Jan. 16.—Scientists who, since 1899, have been studying cancer at the Gradddock Pathological laboratory, of the University of Buffalo, under the patronage of the state of New York, are stated to be preparing a report which indicates that they are nearing the solution of a great problem.

According to men who have taken part in the work, it has been proved that cancer is a parasitic disease, infectious in type; it has been transplanted and reproduced in a perfectly healthy animal; that the production has been true cancer, as it exists in the human and that the disease in animals has been cured by the administration of a serum prepared in the laboratory. What remains now is the application of the results of animal experimentation to the cure of the disease that exists in human beings.

CARNEGIE'S PALACE OF PEACE.

Military Grounds Near the Bosch Has Been Selected as Site.

The Hague, Jan. 16.—The government of the Netherlands has finally selected the military parade grounds near the Bosch, as the site for Andrew Carnegie's palace of Peace. The selection must be approved by the state's general.

The Bosch (or wood) is a park nearly 2 miles long, a short distance out of the Hague. It abounds in forest trees which are allowed to grow unclipped. At the end of the park is the palace known as the Huis Ten Bosch (the house in the wood) built in 1647. It contains many old and valuable paintings.

Indus Might Be Saved.

New York, Jan. 16.—With the removal of a considerable quantity of her cargo the steamer Indus aground on Fire Island bar today rested on an almost even keel. The wreckers believed there was still a good chance to save the vessel if the weather continues favorable. The work of removing her cargo of sugar continued without cessation. Hardly more than half a mile from where the Indus lies the wreck of the big steamer Drumelzier is sinking slowly but steadily in the sand.

Floods in Arizona.

Phoenix, Ariz., Jan. 16.—The Gila river at the crossing of the Maricopa and Phoenix railroad is reported a mile wide and the railroad bridge over that stream was completely submerged. It is not known whether or not the bridge has been washed away, as there is so much water rushing down the canyon an investigation cannot be made at present. All mails have been sent back to Prescott, thence over the Santa Fe.

New York, Jan. 16.—Julius Hirsch Appel, about 42 years old, who described himself as a promoter, was arrested here today for Providence, R. I., officers on a warrant charging embezzlement of $18,000 on Oct. 27 last. The complainant is Virginia Winterbotham of Providence by whom Appel was employed as a clerk.

MINERS ARRANGING FOR BIG MEETING

Preparing For Giant Struggle With Mine Owners.

MUST RECOGNIZE THE UNION

Plans to Put Organization on War Footing and Will Provide a Treasury Fund of $1,000,000—Will Not Interfere With Wage Scale This Year.

Indianapolis, Jan. 16.—Miners of the bituminous and anthracite districts are arranging for their national convention which will begin Monday morning.

On account of the 2-year agreement, no joint meeting with operators will be held this year to fix a scale. Scale matters in several districts will come up for consideration, however, including the central Pennsylvania district, which has but a one year contract, expirnig in April.

It is anticipated that precautionary preparations for another great struggle between the anthracite coal operators and the United Mine Workers will be laid. The convention will devote a part of its time to planing for a war footing for the organization so that it will be able to meet the demands df the the anthracite operators on April 1, 1906. The miners want:

1. Recognition of the union.

2. A joint contract, such as is now existing in the principal bituminous districts covering at least a year.

3. The addition of the check-off system by the anthracite companies by which they, as the bituminous operators now do, will collect the union dues at the mine.

The plans to put the organization on a war footing provide for a full $1,000,000 treasury fund, a thorough organization in the anthracite districts and a pitting of the bituminous operators of western Tennessee, Ohio, Iowa, Illinois, Indiana, West Virginian, Maryland, Michigan and the south and west against the anthracite operators.

Such a Bill Has Been Introduced in the Tennessee Legislature.

Nashville, Tenn., Jan. 16.—In the lower house of the state legislature Mr. Rawls has introduced a bill "to encourage matrimony and to promote the strenuous life."

He proposes to tax all bachelors after they reach the age of 23 years, and to increase the tax as they grow older. Between 23 and 25 years of age the proposed annual tax is $50; 25 to 30 years old, $100; 35 to 40 years old, $150; forty to 50 years old, $225. Over 50 years no tax imposed.

It is estimated that the colony numbers in the neighborhood of 10,000.

MR. HODGE LOST HIS COLD LUCRE

Knocked Down, Dragged Over Palmetto Roots and Robbed

BY A FOURTEEN-YEAR-OLD LAD

Was En Route From Newberry to Alachua and Got Into Trouble When He Stepped Into a Phosphate Pit to Light a Pipe—His Story.

It is certainly a hard proposition to be accosted in an isolated spot, at 11 o'clock in the morning, by a fourteen-year-old lad, knocked down, dragged over several palmetto roots and finally made to "cough up" every cent you can squeeze out of your clothes—but this thing has happened, and Hon. Chas. Hodge of Alachua, during the last campaign a candidate from Alachua county to the Lower House, and who made a most remarkable record by his wonderful campaign speeches, was the victim.

Another disgraceful and humiliating feature of this outrage was the fact that the boy was a negro, and had never received a formal introductien to Mr. Hodge, who would naturally have refused one had that formality been offered.

Mr. Hodge was a visitor to Gainesville Monday and relates his own experience, which cost him $4 60 and a rubber stamp. He stated that he was en route from Newberry to Alachua, walking. The distance is only a before breakfast sprint for this athletic aspirant for political honor, being only twelve or fourteen miles. While about half-way between the places he stepped down into an unused phosphate pit to light his pipe, when he was suddenly accosted by this burly negro youth.

"Good morning; it's a nice day we are having," said Mr. Hodge, with a desire to be pleasant.

"Hello," was the response. "I'm a detective. Who are you?"

At this remark Mr. Hodge admitted that he "got scared," and his form trembled like a muscle dancer doing a turn in a half-busted street fair association.

"My name is Hodge—Charlie Hodge"—he remarked as politely as the condition of affairs would permit. "I'm from Alachua, and have been over to Newberry on a little court business."

"Well, I want your money or your life, and if you fool with me I'll take 'em both," was the startling assurance of the butt-headed boy, as Mr. Hodge declares he grabbed him in the collar, threw him violently to the ground, and, not content with that, dragged him in the collar, threw him over several palmetto roots, tearing his clothes almost beyond repair. This act being concluded he opened an ugly-looking knife and forced Mr. Hodge to produce his pocket book, containing $4.60, and a rubber stamp, after which he left the form of Mr. Hodge lying upon the ground, cautioning him if he ever told he would send him to a worse place than the Legislature.

Mr. Hodge was perfectly earnest in relating the story of this incident, which he said occurred about 11 o'clock Saturday. "You know $4.60 is a heap of money for a poor man to lose, especially in this way, and I don't appreciate it a bit," he concluded.

Mr. Hodge states that, notwithstanding he has resided in that section all his life, he did not recognize the party nor did he ever remember seeing him before. He has notified the officers of the incident, furnishing a description of the man.

AN OLD MEDICINE

IN A NEW FORM; PHYSICIANS ARE PLEASED.

Druggist W. M. Johnson Says Vinol is a New Form of the Oldest and Best Tonic in the World.

"Science conferred a great boon on humanity when two eminent French chemists discovered how to extract from the cod's liver all the curative elements contained in cod liver oil, but without a drop of oil or grease, and thus produce Vinol.

"It is no longer necessary to load the stomach with old-fashioned greasy cod liver oil or emulsions to obtain the curative properties of cod liver oil, for Vinol is like taking the kernel from the nut, the oil or the grease in which the curative elements were enveloped has been discarded, and we offer the people of Gainesville the concentrated essence of the medicine found in cod liver oil, without a drop of oil or grease to upset the stomach and retard its work.

"For centuries doctors and druggists alike have looked upon cod liver oil as the best tonic, strength-creator and body-builder in the world, but have acknowledged that its one great drawback was the grease which it contained. With this grease all eliminated, we offer the people of Gainesville in Vinol a perfect cod liver oil preparation as delicious to the taste as a fresh orange."

Mr. J. B. Kenner, Deputy Clerk of the Superior Court, Atlanta, Ga., writes: "Vinol is the ideal preparation of cod liver oil; it purifies and enriches the blood, induces a good appetite, promotes digestion and invigorates every organ in the body."

"Therefore, in the strongest manner we indorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength to the run-down, tired and debilitated, invigorate and build up old people, make rich, red blood, cure chronic coughs, colds and bronchitis. If it fails, we return your money." W. M. Johnson, Druggist.

HOBO STEW.

A Culinary Triumph That Is Dear to the Tramp.

The professional hobo generally travels and operates alone, but if upon arriving at some large town or city he happens to meet other congenial members of his profession a pooling of interests is sometimes undertaken, a hobo camp set up, and the town is systematically worked. The spot or a camp usually chosen is in the outskirts on some wooded tract not too far from the railroad. Here the profits are divided and the different territories allotted. At nightfall all congregate to this point with the spoils and supplies, and over the "hobo stew" incidents of the day are discussed. "Hobo stew" is a triumph of culinary art that these gentry have a particular weakness for. A large iron pot is purchased, begged or stolen and half filled with water. Into this are thrown pieces of beef, pork, chicken (from some robbed henroost), bread, potatoes, carrots, onions and, in fact, everything edible that has been or can be secured. When the savory mess is sufficiently boiled it is eaten with much gusto by the tramp. These camps are never kept in existence long, however, because the hobo realizes that the danger of detection and a rounding is an ever present one when a large number remain long together in any one camp. Professional tramps, like the birds, have regular migratory seasons. From April to September this tide of immigration is toward the northern and eastern states and the region of the middle west. From November on through the winter, his peregrinations take him south, southwest and to the southern Pacific coast.—Pilgrim.

10,000 Pounds of Meat Burned.

Columbus, Ga., Jan. 16.—News has been received here of the burning of a store house, with its contents, on the farm of Hon. B. S. Miller, at Kellobee, Ga., near Buena Vista. Ten thousand pounds of meat and 10,000 gallons of syrup were destroyed. An insurance of $800 was carried on the store house and contents.

FRUIT MYSTERIES.

The Banana Is Seedless, Though Nobody Knows Why.

The banana is seedless, or nearly so, and has been for centuries, though nobody knows why. It is propagated by suckers and possibly had no seeds when it was first found in its wild state. The banana is a modified berry. Cutting the fruit through the middle you will sometimes see a few little brown spots, which are the rudimentary seeds. Occasionally the banana does actually produce a few seeds.

The pineapple is seedless, being propagated likewise from suckers and from slips. The eggplant, which is a fruit, botanically speaking, is occasionally seedless. This plant is able to produce developed fruit whether the blossom is fertilized or not. Horticulturists are endeavoring at the same time to rid fruit plants of thorns. Some oranges and lemons are very thorny—for example, the high priced King orange, which is the best of the mandarins. The first trees were brought to the United States from Cochin China. In Florida its thorniness has been reduced by selecting buds from the branches with the fewest thorns. Thorns are objectionable because they puncture the oranges and lemons when the branches are blown about by the wind. Efforts are being made to get rid of the thorns on raspberry and blackberry plants simply for convenience in picking the fruit. The thorns are meant by nature to protect the plant from animals. Cultivators select those plants which happen to be thorniess or nearly so.

Laugh.

Learn to laugh. A good laugh is better than medicine. Learn how to tell a story. A well told story is as welcome as a sunbeam in a sickroom. Learn to keep your own troubles to yourself. The world is too busy to care for your ills and sorrows. Learn to stop croaking. If you cannot see any good in the world keep the bad to yourself. Learn to hide your pains and aches under a pleasant smile. No one cares to hear whether you have the earache, headache or rheumatism. Don't cry. Tears do well enough in novels, but they are out of place in real life. Learn to meet your friends with a smile. The good humored man or woman is always welcome, but the dyspeptic or hypochondriac is not wanted anywhere and is a nuisance as well.

Gorgeous Japanese Robes.

In number the diaphanous robes worn by a Japanese woman of high rank of the eleventh or twelfth century were seldom less than twenty, while on great occasions even more might be necessary. Thus at a great palace fete it is said that "some wore as many as twenty-five suits, showing glimpses of purple, of crimson, of grass green, of wild rose yellow and of sapanwood brown, their sleeves and skirts decorated with golden designs, while others, by subtle commingling of willow sprays and cherry blossoms and by embroidered patterns picked out with gems, represented the poem of the jewels and the flowers."

A Grim Tragedy

Is daily enacted in thousands of homes, as death claims, in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley of Oaklandon, Ind., writes: "My wife had the consumption, three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Guaranteed at 50c and $1,00 by all druggists. Trial bottles free.

The Saving Light.

We boast our light; but, if we look not wisely on the sun itself, it smites us into darkness. The light which we have gained was given us not to be ever staring on, but by it to discover onward things now remote from all knowledge.—Milton.

When a Kick Helps.

When one lacks the courage boldly to advance along the perilous course his intelligence counsels, he is lucky if he can and will goad some one into kicking him along it past the point where retreat is impossible.—Success.

Spoiled Her Beauty

Harriet Howard of 209 W. 35th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum, or eczema, for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. Twenty-five cents at all druggists.

A Nest of Criminals.

A spot practically unknown to civilization on the shores of the Red sea at Midi is the home of pirates and slavers, a regular nest of criminals. The place is inhabited almost entirely by men, for the sheik who holds absolute control there allows only the best of his warriors to marry. It pays no tribute to the Turkish government, for it lies at the end of a long, narrow harbor inaccessible to vessels. It seems probable that it will continue its career unchecked.

Mr. F. W. J. Fletcher, a druggist in Victoria, Australia, says: "A customer of mine was so pleased with Chamberlain's Cough Remedy, which she had used for her children when suffering from colds and croup, that during a fortnight's time she obtained at my shop, nine bottles, which she sent to her friends in different parts of the State, telling them how much good it had done and advised them to give it a trial." ODD FELLOWS' HOME.

Many Arrivals and All Enjoying Their Sojourn.

Last week there were a number of new arrivals and the rooms are being filled with guests.

George A. Floding and wife of Huntington, W. Va., are here for the winter, and both are pleasant people. Mr. Floding is a P. G. and P. C. P. of the Odd Fellows and a P. C. of the K. of P. lodge of his home city. He also publishes The Odd Fellows' Advocate and manufactures regalia.

Mr. and Mrs. J. N. Marsh and son, who have been guests for some time, will commence housekeeping this week in the Brown House Annex.

Col. A. E. Whittemore of Bowling Green, Ky., is taking on avoirdupois and his fine bass voice is coming back to him.

We will soon have a fine mixed quartet and be able to furnish music on all occasions. Mesdames Smith, Wilcox and Floding are all getting their voices in fine condition.

Our worthy matron, Mrs. D. G. Edwards, is quite busy these days caring for the sick and the other guests, but the neat and tidy appearance of the Home, as the older guests are disposed to call it, makes it one of the most cheerful places in Florida.

J. C. Byars left on Monday for a business trip along the East Coast, to be gone about two weeks.

Miss. Florence Wilcox, who is here with her mother for the winter, expects to attend the public school during their stay here.

C. D. Schafer, the sculptor, has developed a taste for photography, and on Monday took a snap shot of the Home with all the guests on the porch. If the picture is a good one it will be a great card for his camera, such a variety of beauty being presented.

Mr. Gerald Will Build.

Gainesville may add another fine building to the long list of contemplated improvements, J. B. Gerald having decided to erect a handsome residence on the lot recently acquired, East Main street, N.

The contract has been let, and C. E. Whiting expects to begin work at once. The structure will be two stories, and will contain seven rooms and a bath. It will be modern in every respect, and a possession of which the owner may well feel proud.

SHOOTING BIG GAME.

Danger When the Bullet Fails to Stop the Brute's Advance.

The disturbing element in hunting elephant or seladang or rhino has been always to me at least the feeling of uncertainty as to whether or not I could stop the animal if I wounded it and it charged me, as it did on an average of once in three times.

Based on my experience, therefore, I should place the elephant first and the rhino third after the seladang, which is fully as formidable as the Cape buffalo and is miscalled the bison all over India. Each of these animals is dangerous on different and individual grounds. The elephant, though less likely to charge than any of the others, is terrifying because of his enormous strength, which stops at no obstacle, and the extreme difficulty of reaching a vital spot, especially if, with trunk tightly coiled, he is coming your way.

I know of no sensation more awesome than standing ankle deep in clinging mud in dense cover, with the jungle crashing around you as though the entire forest was toppling, as the elephant you have wounded comes smashing his way in your direction. The seladang is dangerous partly because of the thick jungle he seeks when wounded, but more especially because of his tremendous vitality and his usual though not invariable habit of awaiting the hunter on his tracks and charging suddenly, swiftly and viciously. It requires close and hard shooting to bring down one of these six foot specimens of oriental cattle.

The danger of the tiger and of the lion is in their lightning activity and ferocious strength. But you have the shoulder in addition to the head shot if broadside, or, if coming on, the chest, all sure to stop if well placed. The reason the rhino is so formidable is because its vulnerable spots are so hard to reach. Its brain is as small in proportion as that of the elephant and may be reached through the eye if head-on, or about three inches below and just in front of or just behind the base of the ear, according to your position for a shot.—Outing.

IN A PADDLE WHEEL.

A Terrifying Adventure With a Moment of Deadly Peril.

Mr. Stanhope Hall, author of "Twenty Years at Sea," was not much more than a boy when he had the following curious and terrifying adventure, the recollection of which haunted him all his life: The ship on which he was making his first voyage was loading cotton in Mobile bay, and the captain had sent him in a small boat to get some newspapers from a big side wheel steamer which lay near by.

In trying to bring the boat up to the steamer, he says, I upset myself and went down. I could not swim, and I struggled in hopeless terror. When I came to the surface I found myself in the brackets of the great wheel. They were green with river moss and slippery as ice, but I managed to get astride of one and regain my breath.

As I held on, panting from my plunge, a thrill of horror ran through me. The wheel had slowly begun to revolve. In agony I shouted, but in that great wheel box my voice was as nothing. Slowly the wheel turned, carrying me upward. When I reached the top I should be ground to pieces, or, if by chance I escaped that fate, I should be drowned when I was again drawn under the wheel into the fearful suction.

Again and again I shouted. Finally, as I was nearing the top, a little trapdoor opened and some one looked into the box. I opened my mouth to call once more, but my throat was paralyzed. For a moment I could not utter a note.

The trapdoor was just closing when, with one mighty effort, my voice came back and I screamed. The man opened the trap again, saw me, sprang upon the wheel and snatched me into safety. I was a heavy weight in his arms as he carried me to the deck, for I fainted dead away.

WASHINGTON LETTER.

(From Our Regular Correspondent)

Washington, D. C., Jan. 16.—The President has once more sent consternation broadcast among the conservative members of his party by assuring members of Congress that there will be an extra session of the Fifty-Ninth Congress before next December, despite the frantic efforts of the standpatters to prevent any changes in the previous schedules which Representative Dingley made, according to his own statement, unduly high with a view to permitting of virtual reduction through reciprocity treaties.

No sooner had the word gone forth that the President and some of the Congressional leaders had determined to call a special session in the autumn for the purpose of revising the tariff than the representatives of the protected interests began to arrive in Washington, lead by Wilbut F. Wakeman, secretary of the American Protective Tariff League. Telegrams began to pour in from all directions, some pleading, some threatening, but all declaring that not one jot or tittle of the protection now enjoyed by the favored interests should be abated. Representative Dalzell from what someone has cleverly called "the Steel Trust district of Pennsylvania," and that grand old statesman—"grand" sounds so much better than notorious—General Grosvenor of Ohio, began an active campaign in the House to demonstrate to the President and to the country that the tariff revision sentiment in the Republican party was infinitesimal.

Meanwhile President Roosevelt was sending for members of Congress and reminding them of the express promises made by Republican orators on the stump, that the tariff should and would be revised "by its friends;" that the Republican party was committed to no particular schedules and stood merely for the doctrine of protection on a broad scale. The President warned his brethren that it would be dangerous for them to go into the next campaign without having redeemed their pledges, but all to no purpose, apparently, for now the stand-patters maintain that they have 158 members of the House out of a total Republican membership of 210, committed against tariff revision and an extra session. It is probable that this claim is exaggerated, but there seems to be little doubt that a large majority are opposed to any movement looking to the lowering of the schedules.

Just as the radical protectionists thought, however, that they had outwitted the President, he executed a coup which has left his Republican friends gasping. He declares that he will call a special session of Congress, anyway, not to revise the tariff primarily, if a majority of Congress is opposed to revision, but chiefly to enact satisfactory railway rate legislation. The President says, moreover, that he will so word his call as to permit of tariff readjustment at the extra session and he has no doubt that when the new Congress convenes in a special session it will see the wisdom of following his advice and making the necessary changes in the schedules.

It remains to be seen what will be the next move of the radical protectionists, the patriotic servants of the steel trust, the beef trust, the Standard Oil Company and the rest of those great corporations which seek so diligently to benefit and befriend the public.

But for another class of statesmen, the senators who have cheerfully helped the President in his efforts to secure redemption of the tariff revision promises of his party, the announcement that the President will call a session to deal with the railroad question comes a blow in the face. The stern, dignified, conservative Senate has so long prevented any reform in the supervision of railway rates, or the promotion of federal control of these rates, that it is astounding that a President should have temerity to attempt to dictate its duty. It is hardly conceivable, to those who have long watched the clever obstructionist tactics of the Senate, that the President can accomplish any reform of real value, in the face of the solid opposition which he will meet with from the large majority of his own party, but it is entirely possible that between them the President and the Republican senators will make it so obvious that the Republican party as a whose stands in the way of real reform as to pave the way for great Democratic victories in the future. A prominent Democratic senator said to your correspondent yesterday: "I am almost inclined to believe that with Theodore Roosevelt in the White House and Democratic majorities in both Houses of Congress we could really accomplish something. He is the most un-Republican Rebublican I ever knew."

The President is, however, too much of a protectionist at heart to get along with Democratic majorities, and he is too prone to insist on his own way. The objections to the arbitration treaties, which the Presinent recently sent to the Senate, have been clearly set forth in the public press and by Democratic and Republican members of the Senate, and yet the President has buckled on his spurs and has taken his riding corps and is attempting to drive them through the Senate despite the opposition of both Republicans and Democrats. He has written a letter to the chairman of the Committee on Foreign Relations, Senator Cullum, announcing that if the Senate amends the treaties as that body believes it should, he will withdraw them. Such methods are hardly to be countenanced. The President has the constitutional power to carry out his threat, but it amounts to setting his judgment in a matter concerning foreign relations above that of a very large majority of the Senate, when the constitution expressly stipulates that all foreign relations shall be determined by the judgment of the President and a two-thirds vote of the Senate.

A bill has been introduced in the House of Representatives providing the whipping post for wife beaters in the District of Columbia. It is likely to pass, and men who cannot resist the inclination to beat their wives will have to go across the line to Virginia or Maryland before they may indulge in it.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O.

PIGEON COURTSHIP.

It Sometimes Leads to Battles That Result In Death.

On a south Jersey farm, which was the home of a thousand pigeons and which was conducted by a woman who had formerly been a bookkeeper in Philadelphia, was found one particular fly and coop which was the abiding place of young doves that had reached the mating season. Purposely these young birds were associated together so that they might select their life companions.

The interior of the walls of the coop were filled with boxes, and those pigeons which had mated would select one of these boxes for their home and nest.

This period of courtship is one filled with excitement for the birds. Two young pigeon cocks, having selected the same hen for a mate, have been known to fight to the death in their rivalry. The method of combat is peculiar. The beak and wings alone are used, the combatants catching each other with their beaks by the skin of the head and beating each other with their strong wings.

Having once chosen his mate, the dove, with an occasional exception, remains constant to her through life. The occasional instances of infidelity cause discord in the coop, for when one pigeon tires of his mate and seeks another he meets a vigorous protest from the companion of the bird which he covets. When they have agreed to spend their lives together Mr. and Mrs. Dove select a box and the laying begins. The parent birds may then be less than eight months old.—Era Magazine.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. A PICTORIAL DRAMA.

How Tweed Was Identified in Spain by a Nast Cartoon.

No very strenuous effort had been made to find Tweed, but it became known at last that he was somewhere in Spanish territory. As early as Sept. 30 Nast cartooned the "boss" as a tiger appearing from a cave marked "Spain." Now, suddenly, came another report—a cable—that one "Twid" (Tweed) had been identified and captured at Vigo, Spain, on the charge of "kidnaping two American children."

This seemed a curious statement, for whatever may have been the boss' sins he had not been given to child stealing. Then came further news, and the mystery was explained. Tweed had been identified and arrested at Vigo through the cartoon "Tweedle-dee and Tilden-dum," drawn by Thomas Nast. The "street gamins"—to the Spanish office, who did not read English—were two children being forcibly abducted by the big man of the stripes and club. The printing on the dead wall they judged to be the story of his crime. Perhaps they could even spell out the word "reward" in an upper corner.

Absurd as it all was, the identification was flawless. Tweed, on board the steamer Franklin, came back to America to die. When his baggage was examined it was found that he had preserved every cartoon Nast had drawn of him, save the few final ones published after his escape, one of which had placed him again behind prison bars. On Oct. 7 Harper's republished this picture with the story of the boss' capture. The pictorial drama was complete.—Albert Bigelow Paine in Pearson's.

Cured Lumbago.

A. B. Canman, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another; then different ointments and liniments, gave it up altogether. So I tried once more, and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former soldiers." 25c, 50c and $1. Sold by W. M. Johnson.

Handy to Have Around.

"You don't mind my leaving so many of these bills, do you?" said the collector, with a touch of sarcasm.

"No, indeed," replied the woman in the door. "We rather like it. The children do their examples on the backs of them."

A man never learns how to make his own coffee when he lives at home and his mother has headache, but after he marries he learns.—Atchison Globe.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

MALARIA IN THE SYSTEM

Holly Springs, Miss., March 24, 1903.

While building railroads in Tennessee some twelve years ago a number of hands contracted fever and various forms of blood and skin diseases. I carried S. S. S. in my commissary and gave it to my hands with most gratifying results. I can recommend S. S. S. as the finest preparation for Malaria, chills and fever, as well as all blood and skin diseases. W. I. McGOWAN.

I suffered greatly from Boils, which would break out on different parts of my body. I saw S. S. S. advertised and after using about three bottles I was cured, and for the last three years have had no trouble whatever. A. W. ZEBER.
217 Read St., Evansville, Ind.

I began using your S. S. S. probably ten years ago for Malaria and blood troubles, and it proved so good that I have continued ever since using it as a family remedy. It is a pleasure for me to recommend S. S. S. for the benefit of others who are needing a first rate blood purifier, tonic and cure for Malaria.
Arkansas City, Ark. C. C. HEMINGWAY.

Boils, abscesses, sores, dark or yellow splotches and debility are some of the symptoms of this miserable disease. S. S. S. counteracts and removes from the blood all impurities and poisons and builds up the entire system. It is guaranteed a purely vegetable remedy. Write for medical advice or any special information about case.

An Incident of History.

Julia Ward Howe had just written "The Battle Hymn of the Republic," and was reading it to Elizabeth Cady Stanton.

"Well Lizzie," she asked when she had finished, "what do you think of it?"

"Great!" was the reply. "But you are boosting man again in defiance of our glorious principles. Sit down now and write another to be called "The Battle Her of the Republic."—New York Telegram.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed 'never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

GODPARENTS.

An Ancient Institution, Doubtless of Jewish Origin.

We must doubtless look to the Jews for the origin of godfathers and godmothers. The use of them in the primitive church is so early that it is not easy to fix a time for their beginning. Some of the most ancient fathers make mention of them, and through all the successive ages afterward we find the use of them continued without any interruption. By a constitution of Edmund, archbishop of Canterbury, 1236, and in a synod held at Worcester, 1240, a provision was made that there should be for every male child two godfathers and one godmother and for every female one godfather and two godmothers. King Henry VIII., referring to the Princess Elizabeth, says:

My lord of Canterbury,
I have a suit which you must not deny me—
That is, a fair young maid that yet wants baptism.
You must be godfather and answer for her.
—"Henry VIII.," Act 5, Scene 3.

A constitution of 1281 makes provision for a Christian name being changed at confirmation. This is practically a renaming of the child. The manner in which it was done was for the bishop to use the name in the invocation and afterward for him to sign a certificate that he had so confirmed a person by such new name. It is possible that this practice might have been in Shakespeare's mind when he wrote:

Call me but love, and I'll be new baptized.
Henceforth I never will be Romeo.
—"Romeo and Juliet," Act 2, Scene 2.
—Westminster Review.

Rev. Carlisle P. B. Martin, L. L. D., Of Waverley, Texas; writes: "Of a morning, when first arising, I often find a troublesome collection of phlegm, which produces a cough, and is very hard to dislodge; but a small quantity of Ballard's Horehound Syrup will at once dislodge it, and the trouble is over. I know of no medicine that is equal to it, and it is so pleasant to take. I can most cordially recommend it to all persons needing a medicine for throat or lung trouble." 25, 50c and $1.00. NEGRO SHOOTS WHITE MAN.

A Lynching Is Rumored In Case Victime Dies.

Dallas, Ga., Jan. 16.—Joe Arnold, son of F. P. Arnold, of Brownsville, a prosperous farmer and highly respectable citizen, was shot by Jeff Duncan, a negro, at Lost Mountain, 9 miles from here, just over the line of Cobb county.

Arnold was manager of Judge A. L. Bartlett's store at that place and was a very prominent young man of that section, both in a business and social way.

It is said two negroes walked into the store drunk and begun a disturbance which resulted in the shooting of the proprietor by one of the negroes.

The ball took effect in the breast of Arnold and grave fears are entertained of Arnold's recovery.

The negro escaped but a party of men are ready to take the negro and lynch him, it is rumored, in case the young man dies.

This makes the second shooting affair in almost the same section in less than one month, the former victim being killed instantly.

BURNED TO DEATH.

Aged Woman Meets Tragic End In Her Home.

Columbus, Ga., Jan. 16.—Miss Avis Harper, aged 75 years, was burned to death in a fire which destroyed her home at the foot of Pine mountain, a few miles from Chipley, Ga., information of which has been received here.

Miss Harper lived alone and a Mr. Chambers, who rented her farm, went to her home daily to attend any wants that she might have. When he arrived in sight of her home on Monday morning he saw that it was in flames, and the roof had fallen in by the time he reached it.

The charred remains of the unfortunate woman were found in the ruins.

It is stated that the deceased left a will in which she bequeathed her property to the Methodist and Baptist churches, one-half to each, although she was not a member of either one.

Do Not Suppress a Cough.

When you have a cough do not try to suppress it, but remove the cause. The cough is only a symptom of some disease, and that disease is what you should cure, then the cough will stop of itself. The most common cause of coughing is a cold. Anodynes will promptly suppress the cough, and preparations containing chloroform, opium, etc., are used for that purpose, but they do not cure the cold. Chamberlain's Cough Remedy on the other hand does not suppress the cough, but relieves it by removing from the throat and lungs the mucus which obstructed the breathing and allaying the irritation and tickling in the throat. It also opens the secretions and effectually and permanently cures the cold as well as the cough. For sale by all druggists.

Turpentine Operators Organize.

Valdosta, Ga., Jan. 16.—The turpentine operators in the section from Tifton to Jasper, Fla., and from Waycross to Thomasville, met at the Valdes hotel in this city and perfected the organization of the South Georgia Turpentine Operators' association. Five hundred dollars was subscribed at the meeting for furthering the interests of the association. A number of reports were read by members from the different sections, which indicate that the box cut will not be as large as was thought several weeks ago, due mainly to the scarcity of labor.

Found a Cure for Indigestion.

I use Chamberlain's Stomach and Liver Tablets for indigestion and find that they suit my case better than any dyspepsia remedy I have ever tried and I have used many different remedies. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now.—Geo. W. Emory, Rock Mills, Ala. For sale by all druggists.

Charged with Raising Money Orders.

Knoxville, Tenn., Jan. 16.—James Farr and Horace B. Hassey are in the custody of the United States authorities on the charge of raising mail orders and will be tried here in March. Farr is in the local jail and Hassey at Buffalo, N. Y. Postoffice Inspector Keyes, who worked up the case, said both men confessed to working Knoxville merchants.

Pleasant and Most Effective.

T. J. Chambers, Editor Vindicator, Liberty, Texas, writes Dec. 25, 1902: "With pleasure and unsolicited by you, I bear testimony to the curative power of Ballard's Horehound Syrup. I have used it in my family and can cheerfully affirm it is the most effective and pleasantest remedy for coughs and colds I have ever used." 25c, 50c and $1.00. Sold by W. M. Johnson.

Tired of Being Fired.

Peter was a good workman, but he would go on sprees. His employer was lenient, but when Peter turned up after having been absent for a couple of days without leave he discharged him. But Peter did not take his discharge seriously and went back to work as usual. Again he went on a spree, and again he was discharged and taken back. These little escapades had been repeated four or five times within a couple of years, when Peter walked into the shop one morning looking much the worse for his celebration. "See here," said the employer, "you are discharged." "Look here," said Peter, "I am tired of this. If I am fired again I'll quit the job." And he went on about his work and has not been "fired" since.—Philadelphia Record.

Some London Streets.

In some of the older and narrower streets and alleys of London may be seen at each end two upright posts. At first it might be supposed that they served no more useful purpose than affording material for children to swing on. But they are used to indicate that the streets which are guarded by the posts are closed to wheeled traffic. Some of the thoroughfares in the poorer parts of London are so narrow that a large vehicle would do serious damage if it were driven along them, and as they are generally short cuts would be much used were they not protected.

Doing One's Duty.

Let us do our duty in our shop or our kitchen, the market, the street, the office, the school, the home, just as faithfully as if we stood in the front rank of some great battle and we knew that victory for mankind depended on our bravery, strength and skill. When we do that the humblest of us will be serving in that great army which achieves the welfare of the world.—Theodore Parker.

FAMOUS LITIGATION ENDED.

Involves Millions of Dollars and Is to Be Settled Out of Court.

New York, Jan. 16.—Arrangements have practically been perfected for a settlement out of court of the millions involved in the estates of Chas., Max and Louis Feischmann.

Mayor Judas Fleischmann, of Cincinnati, met the heirs of his uncle Max here and as the representative of the heirs of Charles Fleischmann, is stated to have made a friendly arrangement to pay to them several millions of dollars rather than have the entire fortune tied up for years. The plan will be put into effect as soon as a court decree empowering him to take this course is rendered.

This ends a litigation which was begun soon after the death of Chas. Fleischmann on his yacht in 1897. His brother Max died in 1890.

A Strike of Trainmen.

Pittsburg, Pa., Jan. 16.—A strike of trainmen on the Pennsylvania system in the near future is not regarded seriously by the employes of the company in and about Pittsburg. It was stated today that at least no definite action in the matter would be taken before the answer of General Manager Atterbury, was submitted to the members of the organization and then even if the demands of the trainmen are not granted, a strike will not be ordered until further action is taken by all the lodges of the Brotherhood of Railway Trainmen or by the executive committee of that body.

REMEMBER IN A SICKROOM

That medicine bottles should be kept out of sight.

That garrulous friends should be treated in the same wise fashion.

That a rubber ice bag is as useful as a hot water bag.

That everything about the room should be scrupulously clean.

That it is sometimes safer to humor sick people than to argue with them.

That rapid recovery from illness often depends more upon nourishing food than upon medicine.

That sweet smelling flowers should never be permitted in a room where there is a very sick person.

That both light and ventilation can be regulated by placing a tall screen between the bed and window.

An Old, Old Story.

How ancient is the servant problem? A correspondent of the New York Post, referring to a letter from the Duchess of Ormonde, written in 1668, quotes from an epistle dated North Yarmouth, Me., March 26, 1785, as follows: "I have been without any but Betsy about a fortnight and am determined to continue so rather than endeavor to hire one of this country. The pride of independence is so prevalent here that the people had rather slave at home than live in my kitchen in plenty. Were I to take them to my table they would have no objection to oblige me. The want of good domestics is general; therefore I have less reason to complain, but I wish a method could be found to render us less dependent upon them."

Why He Waits.

"I went to the trial of that brain testing machine," he said.

"Yes?" she returned wearily.

"I let them try it on me," he continued, feeling sure he would arouse her interest in due time.

"Yes?" she responded with the same evident weariness.

"It didn't work," he persisted.

"Of course not," she said, with some emphasis.

It took him some time to figure it all out, but when he did he decided to postpone his proposal for at least another week.—New York Press.

Brain Workers.

Brain workers suffer from headache because they over-tax and exhaust the brain nerves.

Tired, irritated, turbulent brain nerves throb and ache; this weakens the brain power, and robs the memory.

Dr. Miles' Anti-Pain Pills bring tranquility to the excited nerves and stop the pain.

If not relieved, this nerve disturbance is frequently extended to the stomach, causing nausea, vomiting—sick headache.

Dr. Miles' Anti-Pain Pills are convenient to take—just a little tablet, that in a few moments relieves the pain; they leave no disagreeable after-effects, as they contain no opium, morphine, cocaine or chloral in any form.

"From personal experience I can testify that Dr. Miles' Anti-Pain Pills are a most excellent remedy for headache and neuralgia. I have been a great sufferer from both diseases for the past three years. A friend who had also suffered from neuralgia handed me some of the Anti-Pain Pills. I took them and they gave me almost instant relief. Since then I have a package at home, and another at the office, and they never fail to relieve me." R. V. MEGARY, 927 N. Sawyer St., Chicago, Ills.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails he will return your money. 25 doses, 25 cents. Never sold in bulk.

Ripley, Tenn., June 1, 1901.

Dr. E. W. Hall, St. Louis Mo.—Dear Sir: Having tried various remedies without satisfactory results, I was persuaded to give your "Texas Wonder" a trial. I have used one bottle, and although my case is one of long standing that baffled the skill of the best physician, yet it yielded at once to "The Texas Wonder," which I heartily recommend to all suffering from kidney and bladder troubles.

Yours truly,
W. H. BRUTON,
Pastor Baptist Church, Ripley, Tenn.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

Mrs. Aday Willis of Williston was the lucky winner of the handsome graphophone given away by Moses Edelstein, the number being 274. A strange and gratifying coincidence of this drawing is the fact that of all holding tickets this estimable lady seemed most anxious to win the prize. Her fond desire has been realized, and Mr. Edelstein will deliver the graphophone to her with great pleasure.

The Miami Record has the following to say of John Thompson, who will appear at the opera house Thursday night, January 19th: "John Thompson, inimitable comedian, conducted a delightful audience at the auditorium last night 'Around the World in Eighty Minutes.' Mr. Thompson is the funniest comedian who has ever entertained a Miami audience, and his impersonations of various characters from the Yankee farmer to a Baxter street barker are simply killing. He is a fine musician, also, and plays any instrument constructed. His entertainment is clean, wholesome and excruciatingly funny, and he had his last night's audience on the verge of hysterics."
